Industry Information:

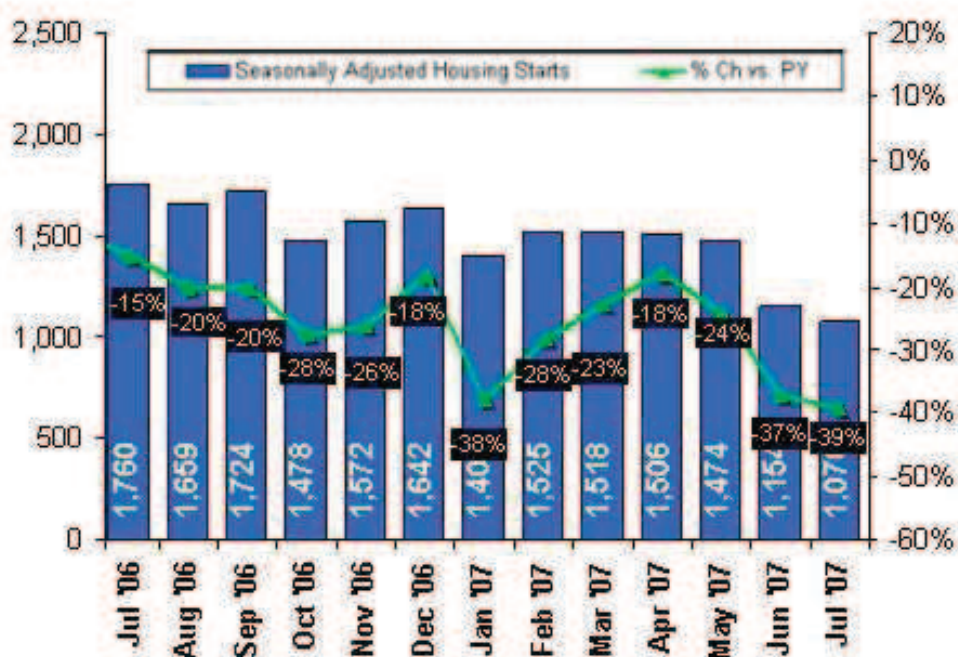

Plan your red cedar shingle, solid clapboard or trim orders!

Unfortunately, the industry hasn't seen any improvement in the area of red cedar. In the past month, the area has experienced river flooding, a heat wave and a logger strike. All red cedar product prices are at unprecedented levels and sadly, there doesn't appear to be any relief on the horizon. Please make every effort to plan your projects well ahead if you'll be needing cedar products. The sooner we can get our orders in, the better the turnaround for you.

So, the question is out there - what are we missing? More manufacturer trips? More sales calls? Is there something that we're not thinking of that would help you once in a while or every day?
